ABOUT ME

I born in 1978 in Tehran, Iran. I started his career on local theatre stages and grew to act in many adopted and original productions such as Hamlet and Othello, and also led a production of Shahnameh Ferdousi Carnival. Besides acting, I gained valuable experiences in painting, writing, and graphic design, all of which prepared him for starting a career as a director of the theatre plays in Tehran. In one of these projects, I employed modern conceptual photography techniques to illustrate unique natural shapes among trees, which were shown in several group exhibition series entitled "Rozhano", held in India.
